

Non-Alloy Seamless Steel Tubing for Water / Construction / Chemical Industry

Our Product Introduction

for more products please visit us on pipesteels.com

Basic Information

- Place of Origin: USD500-700
- Brand Name: Zhengshen
- Certification: ISO, CE, GOST
- Minimum Order Quantity: 1 Ton
- Price: USD500-700
- Packaging Details: Free Packing
- Delivery Time: 5-8 days
- Supply Ability: 20000Tons/month

Product Specification

- Sample: Available
- Alloy Or Not: Non-Alloy
- Technical: Hot Rolled Or Cold Drawn
- Type: Steel Seamless Pipe
- Special Pipe: API Pipe, Thick Wall Pipe
- Material: Carbon Steel
- Products: Seamless Steel Pipe
- Application: Oil And Gas, Water, Construction, Chemical Industry, Boiler, Heat Exchanger
- Highlight: **Non Alloy Seamless Steel Tubing, Chemical Industry Seamless Steel Tubing**

Product Description

Product Description:

Seamless steel tubing is a versatile product that is widely used in various industries for its strength, durability, and reliability. One of the most popular Seamless Steel Pipe products available is the Steel Seamless Pipe, which is made from high-quality Carbon Steel material. The Seamless Steel Pipe is known for its seamless construction, which means that there are no joints or welds along the length of the pipe. This seamless design provides a smooth interior surface, which allows for efficient fluid flow and reduces the risk of leaks or failures.

Surface treatment options for the Seamless Steel Pipe include Bare, Oiled, and Black Painting. The Bare surface treatment is a natural finish that is suitable for applications where the pipe will be exposed to the elements. Oiled treatment provides corrosion protection during storage and transportation, while Black Painting offers a protective coating that enhances the pipe's appearance.

When it comes to invoicing, the Seamless Steel Pipe is typically sold by Theoretical Weight. This invoicing method ensures fair pricing based on the estimated weight of the pipe, making it easier for customers to calculate costs and manage their budgets.

Whether you are working in the construction, oil and gas, automotive, or manufacturing industry, Seamless Steel Pipe is a reliable and cost-effective solution for your piping needs. Its seamless construction, high-quality Carbon Steel material, and versatile surface treatment options make it a popular choice for a wide range of applications.

Features:

Product Name: Seamless Steel Pipe

Material: Carbon Steel

Products: Seamless Steel Pipe

End Protector: Plastic Pipe Cap

Sample: Available

Ends:

Plain End

Beveled End

Threaded End

Applications:

Seamless steel tubing by Zhengshen is a versatile product suitable for a wide range of application occasions and scenarios due to its high quality and durability. Originating from USD500-700, these carbon steel seamless steel pipes are known for their superior strength and resistance to corrosion.

With plain ends, beveled ends, and threaded ends options available, the Zhengshen seamless steel tubing can be easily customized to fit different project requirements. Whether it is for construction, oil and gas transportation, machinery manufacturing, or other industrial applications, these seamless steel pipes provide a reliable and efficient solution.

As a type of non-alloy steel seamless pipe, Zhengshen's seamless steel tubing is ideal for projects that require high precision and smooth surface finish. The seamless construction ensures uniformity and consistency in performance, making it suitable for demanding environments.

Whether it is for transporting fluids, gas, or structural purposes, the Zhengshen seamless steel tubing offers a reliable and cost-effective solution. Its durability and strength make it suitable for both indoor and outdoor applications, providing long-lasting performance in various conditions.

Overall, Zhengshen's seamless steel tubing is a versatile product that can be used across a wide range of industries and applications. Its high-quality material, precise manufacturing, and customizable options make it a preferred choice for projects that require reliable and efficient steel piping solutions.

Customization:

Product Customization Services for Seamless Steel Pipe: -----

Brand Name: Zhengshen

Place of Origin: USD500-700

End Protector: Plastic Pipe Cap

Tolerance: $\pm 5\%$, $\pm 10\%$

Material: Carbon Steel

Alloy Or Not: Non-Alloy

Type: Steel Seamless Pipe
