

## Threaded End Seamless Steel Pipe for Oil and Gas Applications

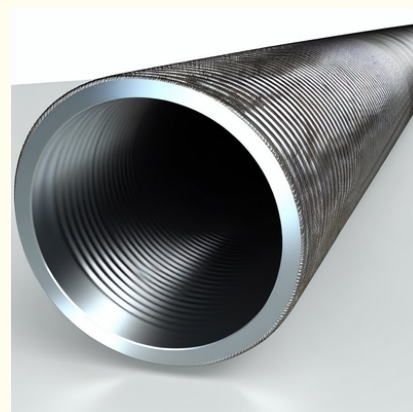

### Basic Information

- Place of Origin: USD500-700
- Brand Name: Zhengshen

### Product Specification

- Technical: Hot Rolled Or Cold Drawn
- Application: Oil And Gas, Water, Construction, Chemical Industry, Boiler, Heat Exchanger
- Products: Seamless Steel Pipe
- End Protector: Plastic Pipe Cap
- Alloy Or Not: Non-Alloy
- Invoicing: By Theoretical Weight
- Section Shape: ROUND
- Tolerance:  $\pm 1\%$
- Highlight: **threaded end seamless steel pipe, seamless steel pipe for oil, steel pipe for gas applications**

## Product Description

### Threaded End Seamless Steel Pipe for Oil and Gas Applications

#### Product Specifications

|               |   |
|---------------|---|
| Technical     | Hot Rolled Or Cold Drawn  |
| Application   | Oil And Gas, Water, Construction, Chemical Industry, Boiler, Heat Exchanger |
| Products      | Seamless Steel Pipe   |
| End Protector | Plastic Pipe Cap  |
| Alloy Or Not  | Non-Alloy   |
| Invoicing     | By Theoretical Weight   |
| Section Shape | ROUND   |
| Tolerance     | ±1%   |

#### Product Description

Seamless steel tubing is a versatile and durable product widely used in various industries for its superior strength and reliability. One of the key features is its different end options, including Plain End, Beveled End, and Threaded End, offering flexibility in installation based on project requirements.

As a Non-Alloy product, this seamless steel pipe is made from pure steel without additional elements, resulting in high resistance to corrosion and oxidation.

The manufacturing process includes both Hot Rolled and Cold Drawn methods. Hot Rolled seamless steel tubing offers smoother surface finish and improved mechanical properties, while Cold Drawn enhances dimensional accuracy and surface quality.

#### Key Features

- **Product Name:** Seamless Steel Pipe
- **Material:** Carbon Steel
- **End Protector:** Plastic Pipe Cap
- **Surface Treatment:** Bare, Oiled, Black Painting
- **Technical:** Hot Rolled Or Cold Drawn

#### Technical Parameters

|                      |   |
|----------------------|---|
| <b>Application</b>   | Oil And Gas, Water, Construction, Chemical Industry, Boiler, Heat Exchanger |
| <b>End Protector</b> | Plastic Pipe Cap  |
| <b>Technical</b>     | Hot Rolled Or Cold Drawn  |
| <b>Ends</b>          | Plain End, Beveled End, Threaded End  |
| <b>Products</b>      | Seamless Steel Pipe   |
| <b>Surface Treat</b> | Bare, Oiled, Black Painting   |
| <b>Type</b>          | Steel Seamless Pipe   |
| <b>Tolerance</b>     | ±1%   |
| <b>Section Shape</b> | ROUND   |
| <b>Special Pipe</b>  | API Pipe, Thick Wall Pipe   |

## Applications

**Construction Industry:** Used in buildings, bridges, and structures due to its strength and corrosion resistance. The ROUND section shape ensures uniformity in construction projects.

**Oil and Gas Industry:** Ideal for transporting fluids with reduced leak risk. Various end types (Plain, Beveled, Threaded) enable flexible configurations.

**Automotive Industry:** Used for manufacturing components where structural integrity and reliability are paramount. Additionally suitable for agricultural, mechanical, and structural applications. Samples available for evaluation before bulk purchases.
